### Receiving the money, you are owed may take some time.

A claim may be delayed for a variety of reasons. Opposing claims, legal concerns, or the need to provide more documentation can all significantly hold down the process. It's also worth noting that in most circumstances, no restrictions control how soon holders must pay claims, which allows them to invest and earn interest on the assets. To meet the various financial needs of our clients, Florida Bureau of Unclaimed Funds has created "cash advance" options. Find out below which option suits you best:

- **Cash Now:**  
*Offers you cash immediately. You receive a lump-sum payment in exchange for selling your claim rights to Florida Bureau of Unclaimed Funds.*
- **Lumpsum Cash:**  
*Offers you the opportunity to receive your claim in 2-4 payments within the first 60 days of having filed your claim with Florida Bureau of Unclaimed Funds. You can take some of it now and more of it later. It's your choice.*

With any option, the process will be fast and simple, and you'll typically get paid in five to seven business days. We handle all of the paperwork, pay you immediately and assume all of the risk. Should your claim be denied you will owe us nothing and will never have to pay us back a penny of the funds you were advanced.
